Additional information that needs to found on CCRPI states

- Use of calculators on mathematics assessments
- Which grades have writing test
- Content areas tested beyond Language Arts, Mathematics and Science
- Allowed accommodation for students with disabilities, 504 and ELL
- Eligibility criteria for alternate assessments for students with disabilities

Common Core Questions

- Will Common Core be completed for Science? Social Studies?
- What science knowledge, skills, processes would be considered CCR?

Collaborative would need to reach agreement on many of these open questions.

- For example, is Arizona ready to allow calculator use on some part of a Mathematics assessment, what calculator would be allowed at which grades? Will calculators be provided to classrooms for instruction?
- Agreement of allowable accommodations would involve not just assessment but the ESS and ELL.
